Who ?

ABS West Midlands Limited are a long established Wolverhampton based firm who provide business services to commercial property owners and tenants throughout the UK. ABS are a division of the Abbey Group who have serviced the public and private sector with industrial cleaning services for over twenty years.

Why ?

All of their clients benefit from our individual attention to every detail. Their absolute commitment to client satisfaction means that they work closely with their clients throughout the project to identify exactly what they want at every stage.

The key to good project management is keeping the costs under control and delivering the end result on time. This is the philosophy the company was based on and has earned them large contracts and repeat business from many companies throughout the UK, such as The Unipart Group Of Companies (UGC).

What ?

ABS West Midlands Limited carry out commercial refurbishments working closely with our clients to ensure the project is completed to their satisfaction and ontime.

Projects include office partitions, mezzanine floor, full factory refurbishment including industrial racking, even controlled demolition of existing structures.

Commercial Refurbishment, Demolition, Factory Clearing, Pallet Racking, Mezzanine Floors, Partitioning

Our Services

ABS West Midlands Limited carry out commercial refurbishments working closely with our clients to ensure the project is completed to their satisfaction and ontime.

Our highly experienced project managers organise and manage the project from start to finish, to ensure the project runs to plan.

Whatever the size of project and type of workspace from dividing partitions to full mezzanine floors our experienced team guarantee the minimum amount of disruption and the highest quality of work.

Projects include office partitions, mezzanine floor, full factory refurbishment including industrial racking, even controlled demolition of existing structures.

Refurbishment

Commercial external and internal demolition work to flatten existing structures in order to rebuild, or restore a vacated premises back to its original empty floor space, an ideal service for new and vacating tenants

Pallet Racking

Erection and installation of pallet racking and industrial shelving to utilise your storage space and provide more efficient stock management.

Mezzanine Floors

Mezzanine Floors (steel raised storage platforms) provide clients with a space solution. Many commercial sites have unutilised headroom and are short of office, storage and work space. A Mezzanine Floor may well be the perfect answer to your space problems.

Partitions

Office and factory partitions that utilise your working space to its maximum. Partitions create space, divide work areas and create bespoke rooms to meet your commercial needs.

Factory Clearing

Clearing out commercial buildings of all types, including factories, warehouses and offices. This includes demolishing and removing existing structures such as machinery, partitions, mezzanine floors and racking to restore the unit back to its original empty floor space, an ideal service for new and vacating tenants.
